AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the

application:

LISTING OF CLAIMS:

[c1]Claim 1: (CURRENTLY AMENDED)

A liquid-jet head, including a passage-

forming substrate in which a pressure generating chamber communicating with a nozzle orifice

ejecting a liquid is defined, and a piezoelectric element composed of a lower electrode, a

piezoelectric layer and an upper electrode on one surface of the passage-forming substrate with a

vibration plate interposed therebetween, the liquid-jet head comprising: a sealing plate joined

towards a piezoelectric element side of the passage-forming substrate and having a piezoelectric

element holding portion, the sealing plate hermetically sealing a space secured in a region facing

to the piezoelectric element in such a way that it does not hinder a movement thereof, wherein: at

least a part of a peripheral portion of the piezoelectric element holding portion of the sealing

plate is joined to the passage-forming substrate via a glass joining layer made of glass, and the

glass joining layer is formed over an inner surface of the piezoelectric element holding portion.

[c2]Claim 2: (CURRENTLY AMENDED)

The liquid-jet head according to claim 1,

wherein the glass constituting the glass joining layer contains a gettering agent for trapping

moisture.
